

03 Tinder APP

CONSENT MATCHER

CHALLENGE

CHALLENGE

CHALLENGE

How can you use digital tools & behavioral science to nudge people to talk about sexual consent with their matched partner?

GOAL

People that matched on Tinder talk about sexual consent without having their digital experience feeling broken

"I want to feel free and in charge while dating within Tinder"

"I wished we would have talked about some situations so they would happen differently"

USER PAIN POINTS

"I feel boring talking about sexual consent"

"I am afraid the conversation would be broken if we talk about it"

USER STORIES

"As a Tinder user, I have the tools to continuously discuss about sexual consent, so I feel safe and relaxed."

"As a Tinder user, I want to feel free to act and talk with another user within their own boundaries"

BRAINSTORM

"there could be a chat bot that helps with the conversation."

Chat bot?
Gamification?
Questionnaire?

"use gamification to make talking about sexual consent become a rewarding and important part."

"questions about situations and degree of how comfortable you feel with them."

"there's a little digital assistant in every chat asking questions when it notices that a conversation has gone on for a while."

Check Match Results based on the questionnaire

Match

PROTOTYPE

Questionnaire:

These pages show the questions that aim to collect the situations and degree of how comfortable you feel with discussing the sexual consent.

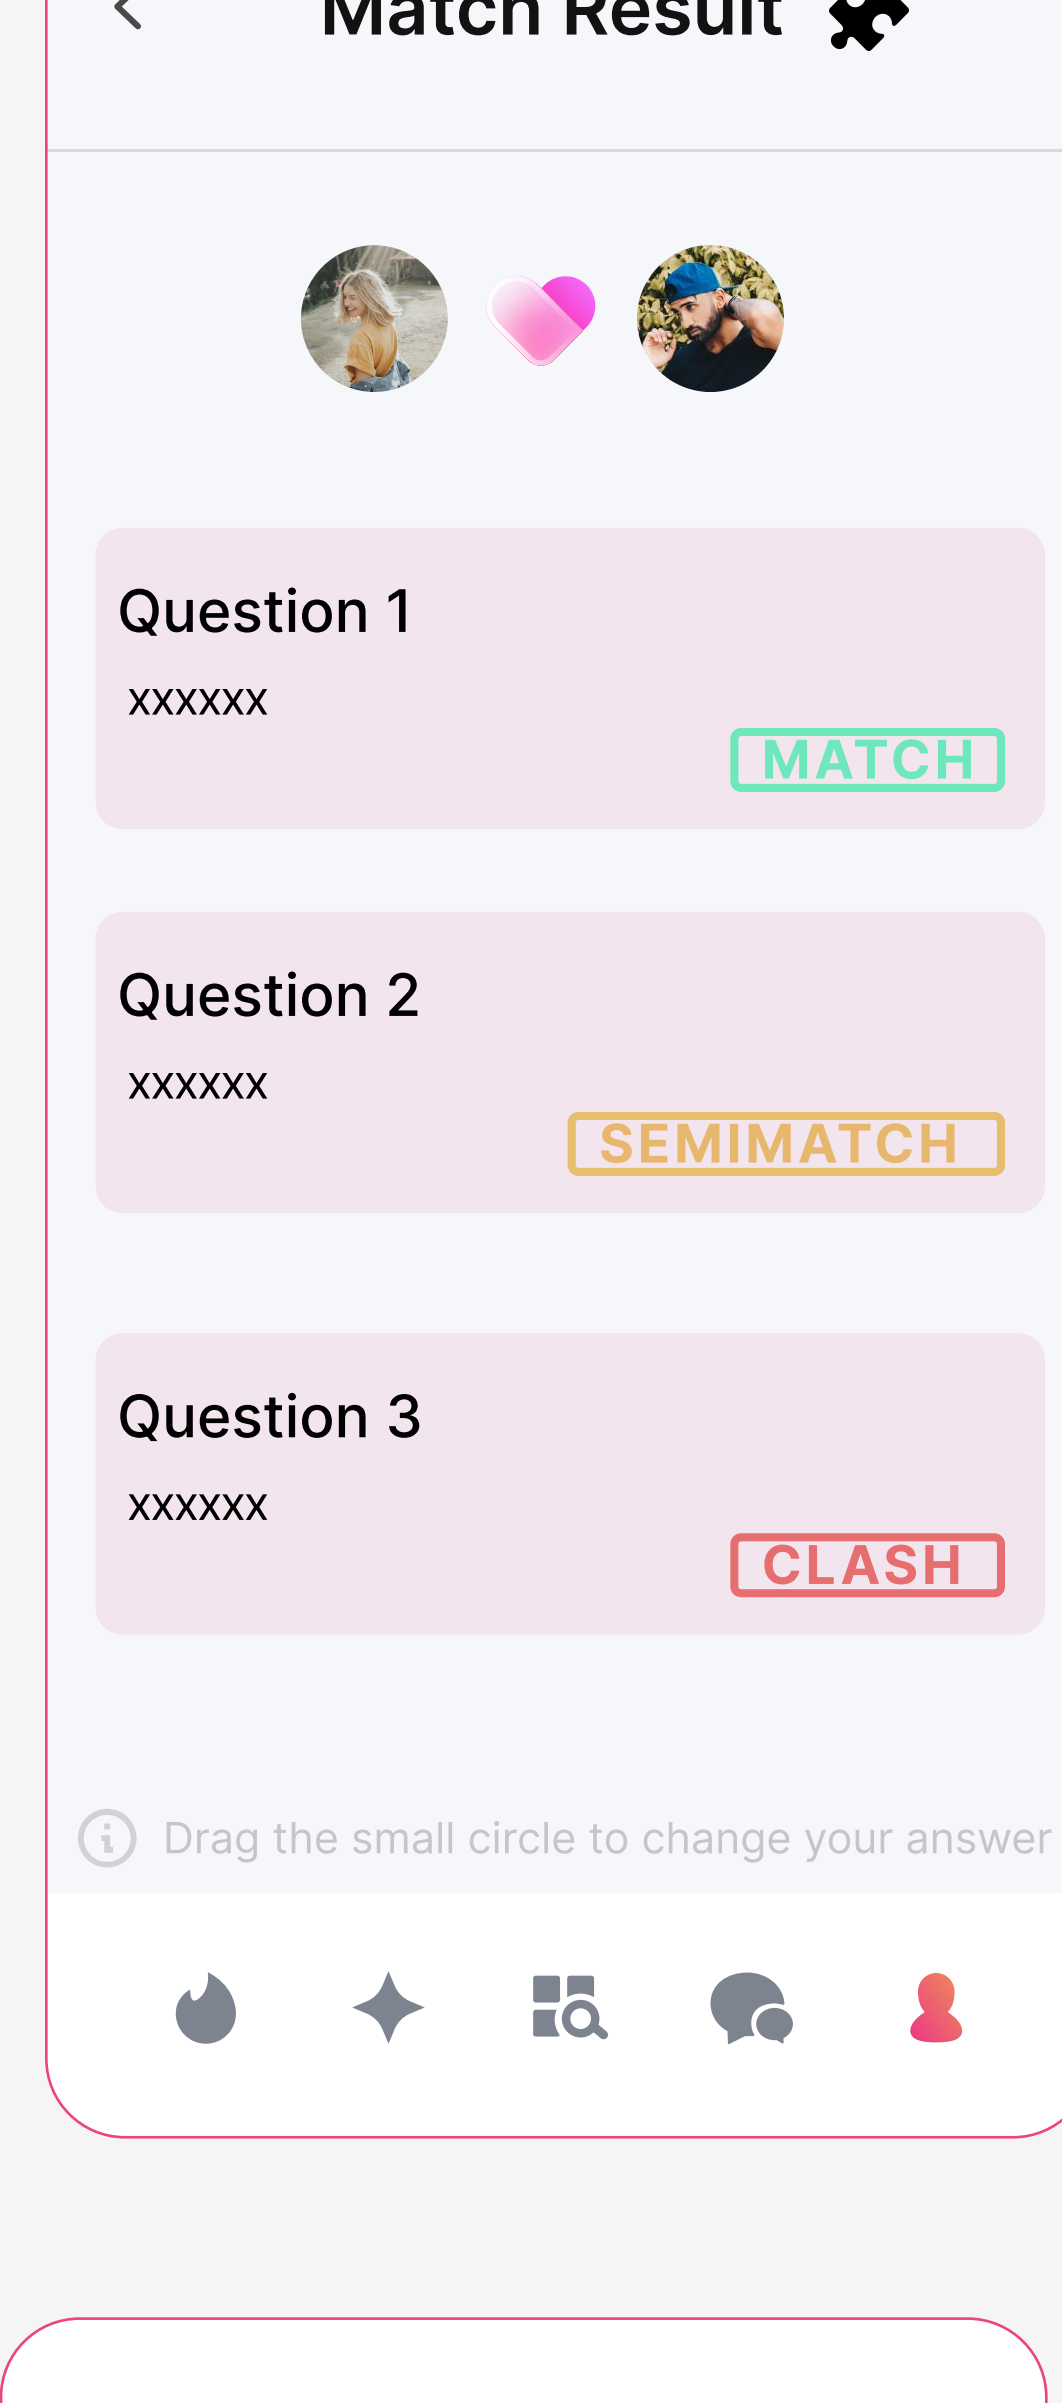

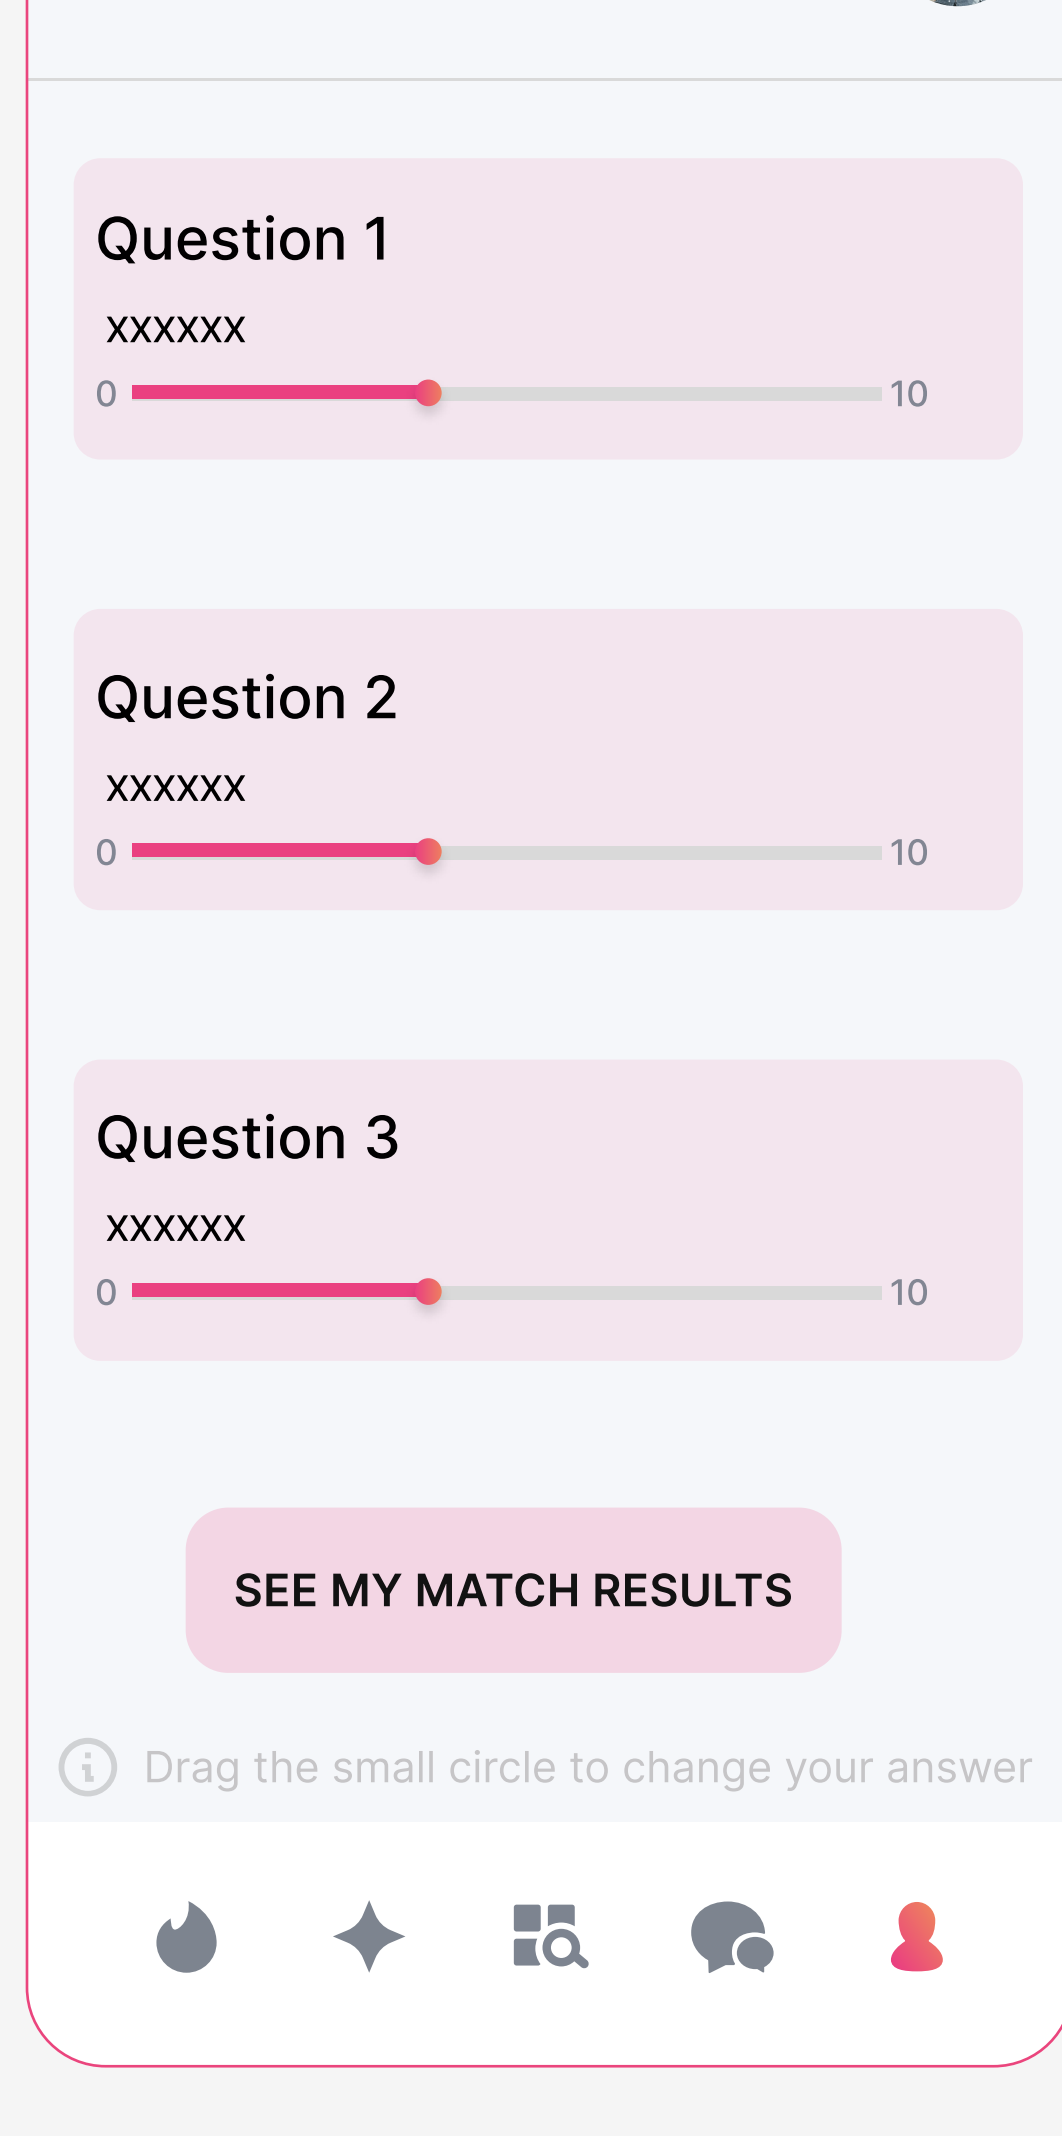

MY Answers:

The answers to the questionnaire are presented in degrees (from 1-10). Match results are mainly generated based on these degrees.

MY Profile:

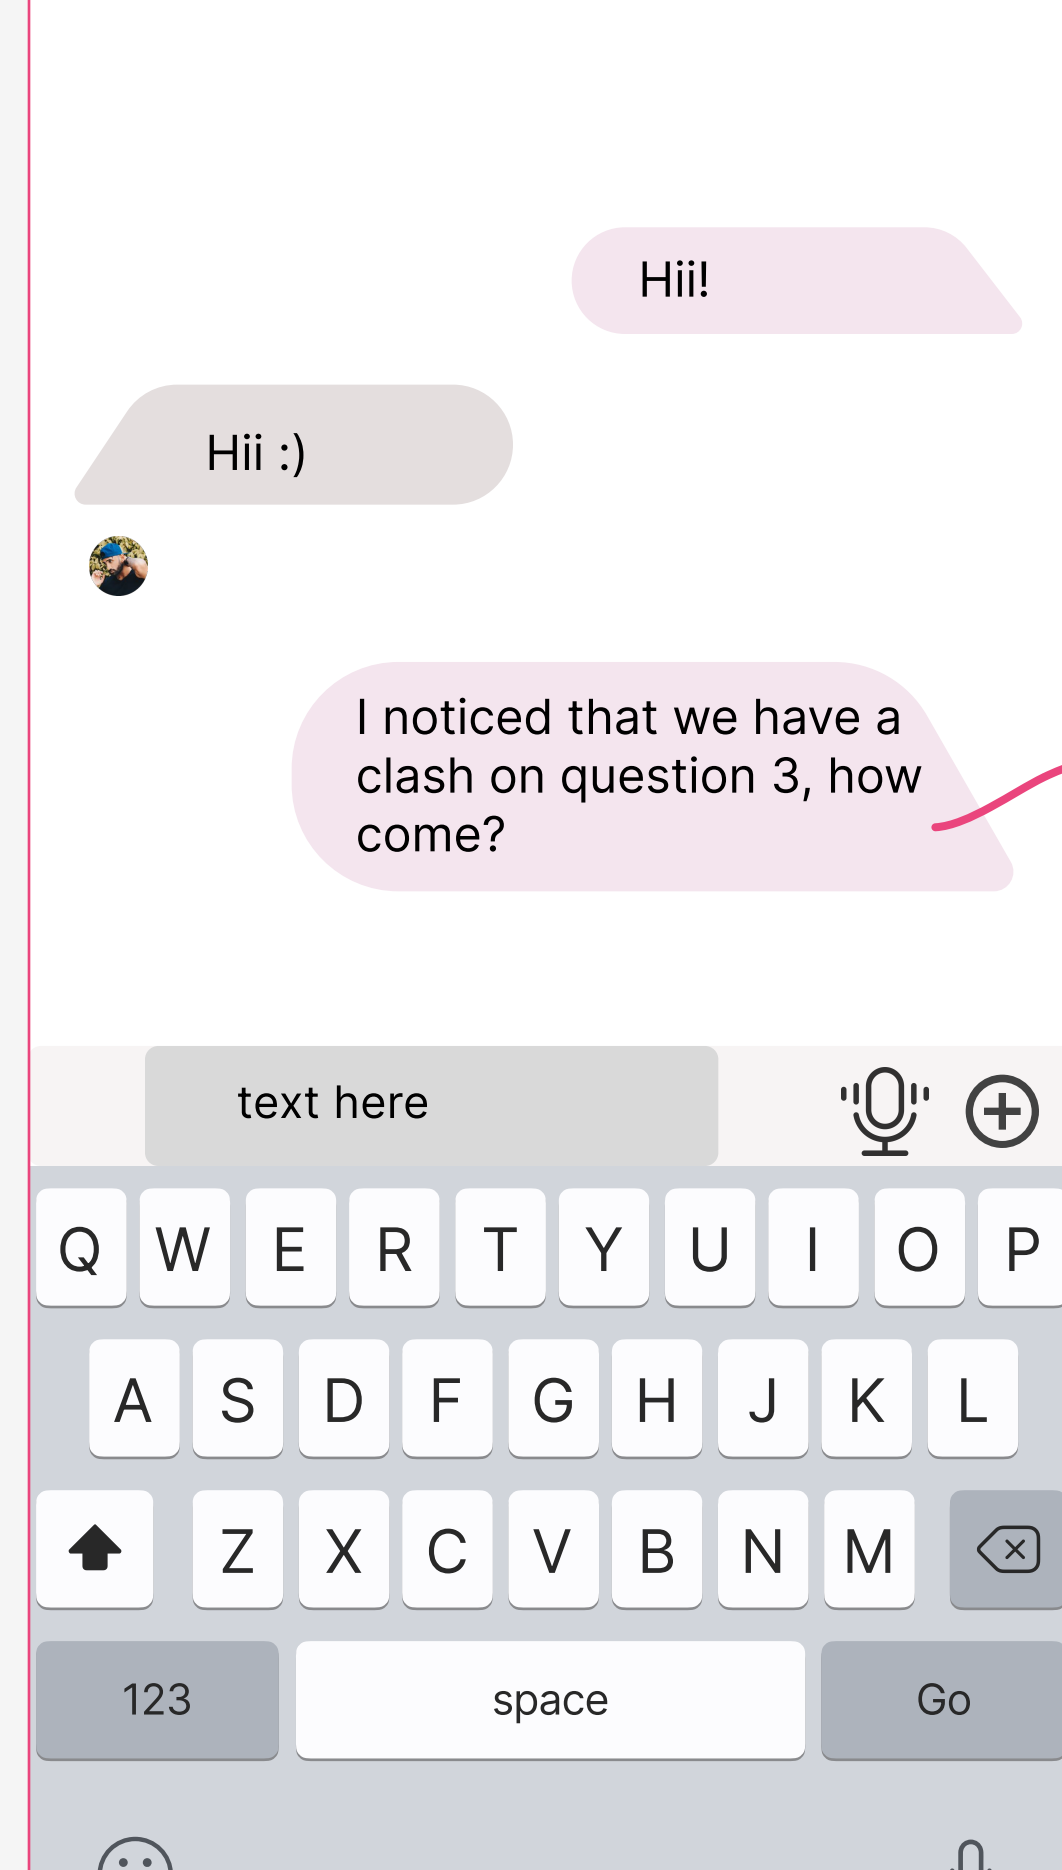

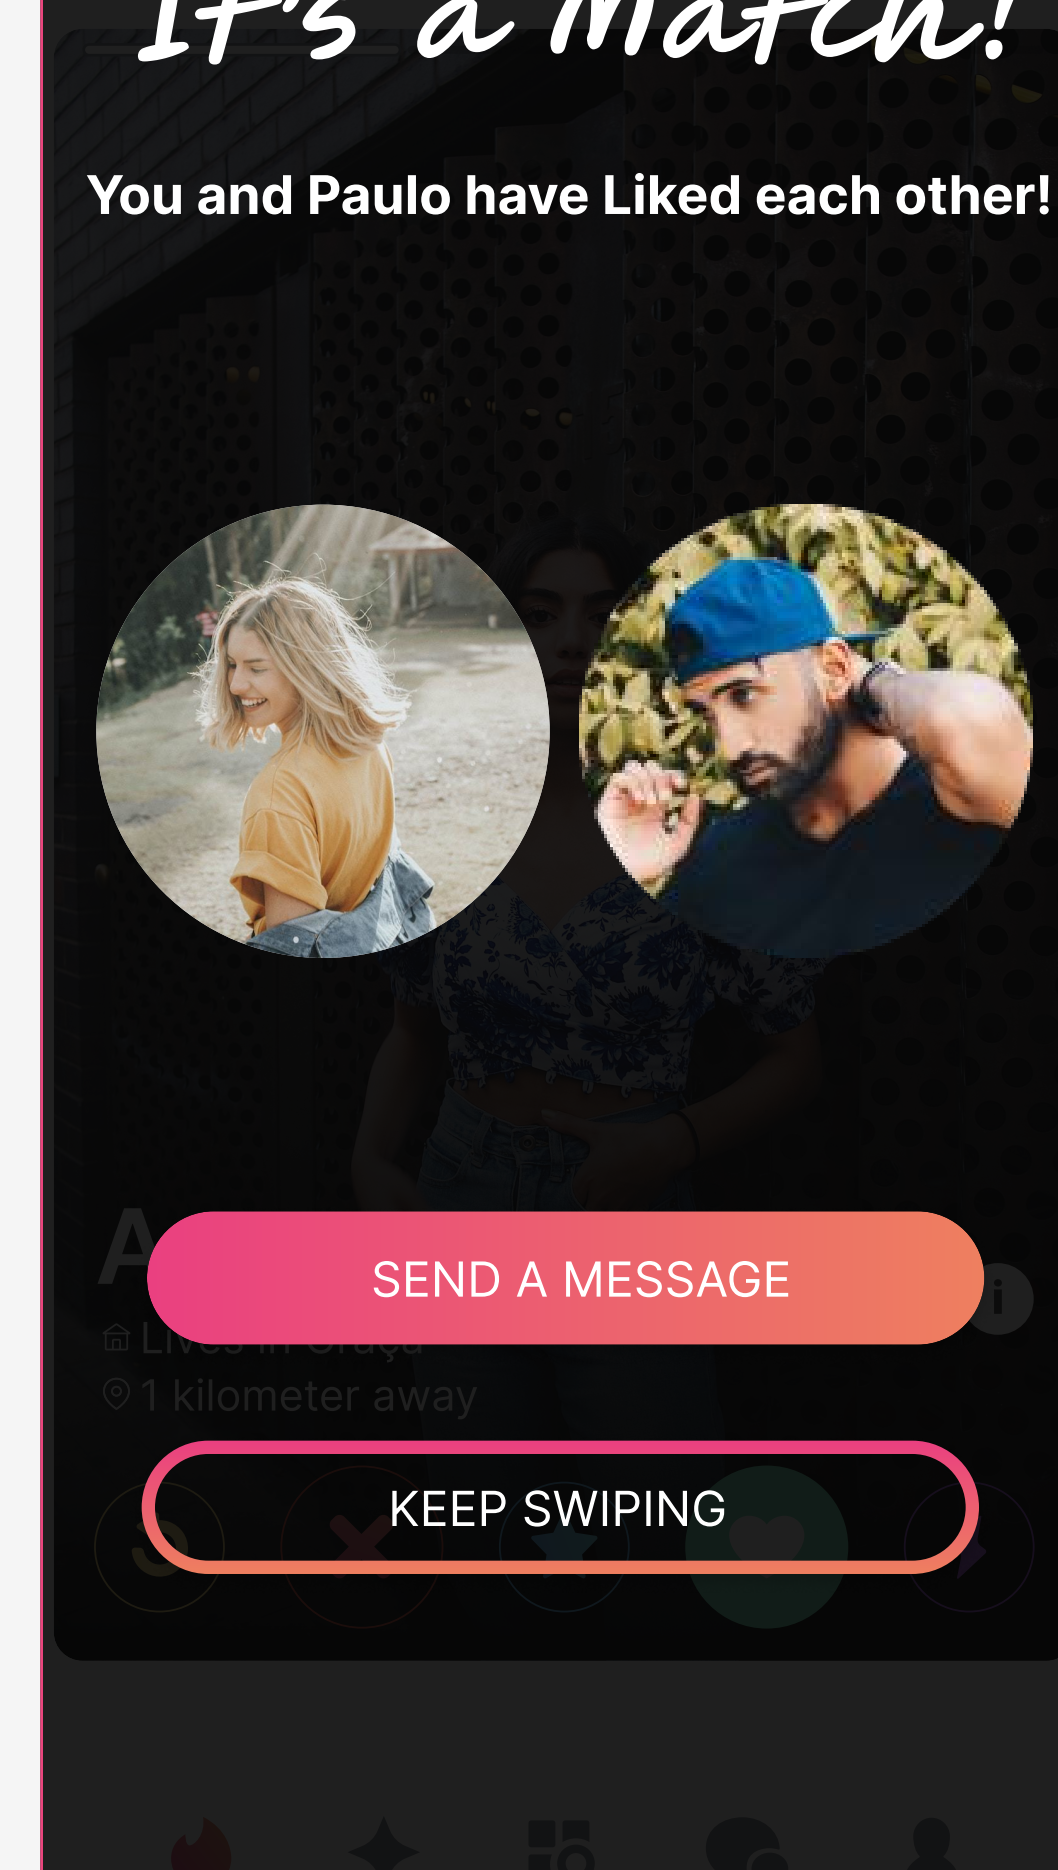

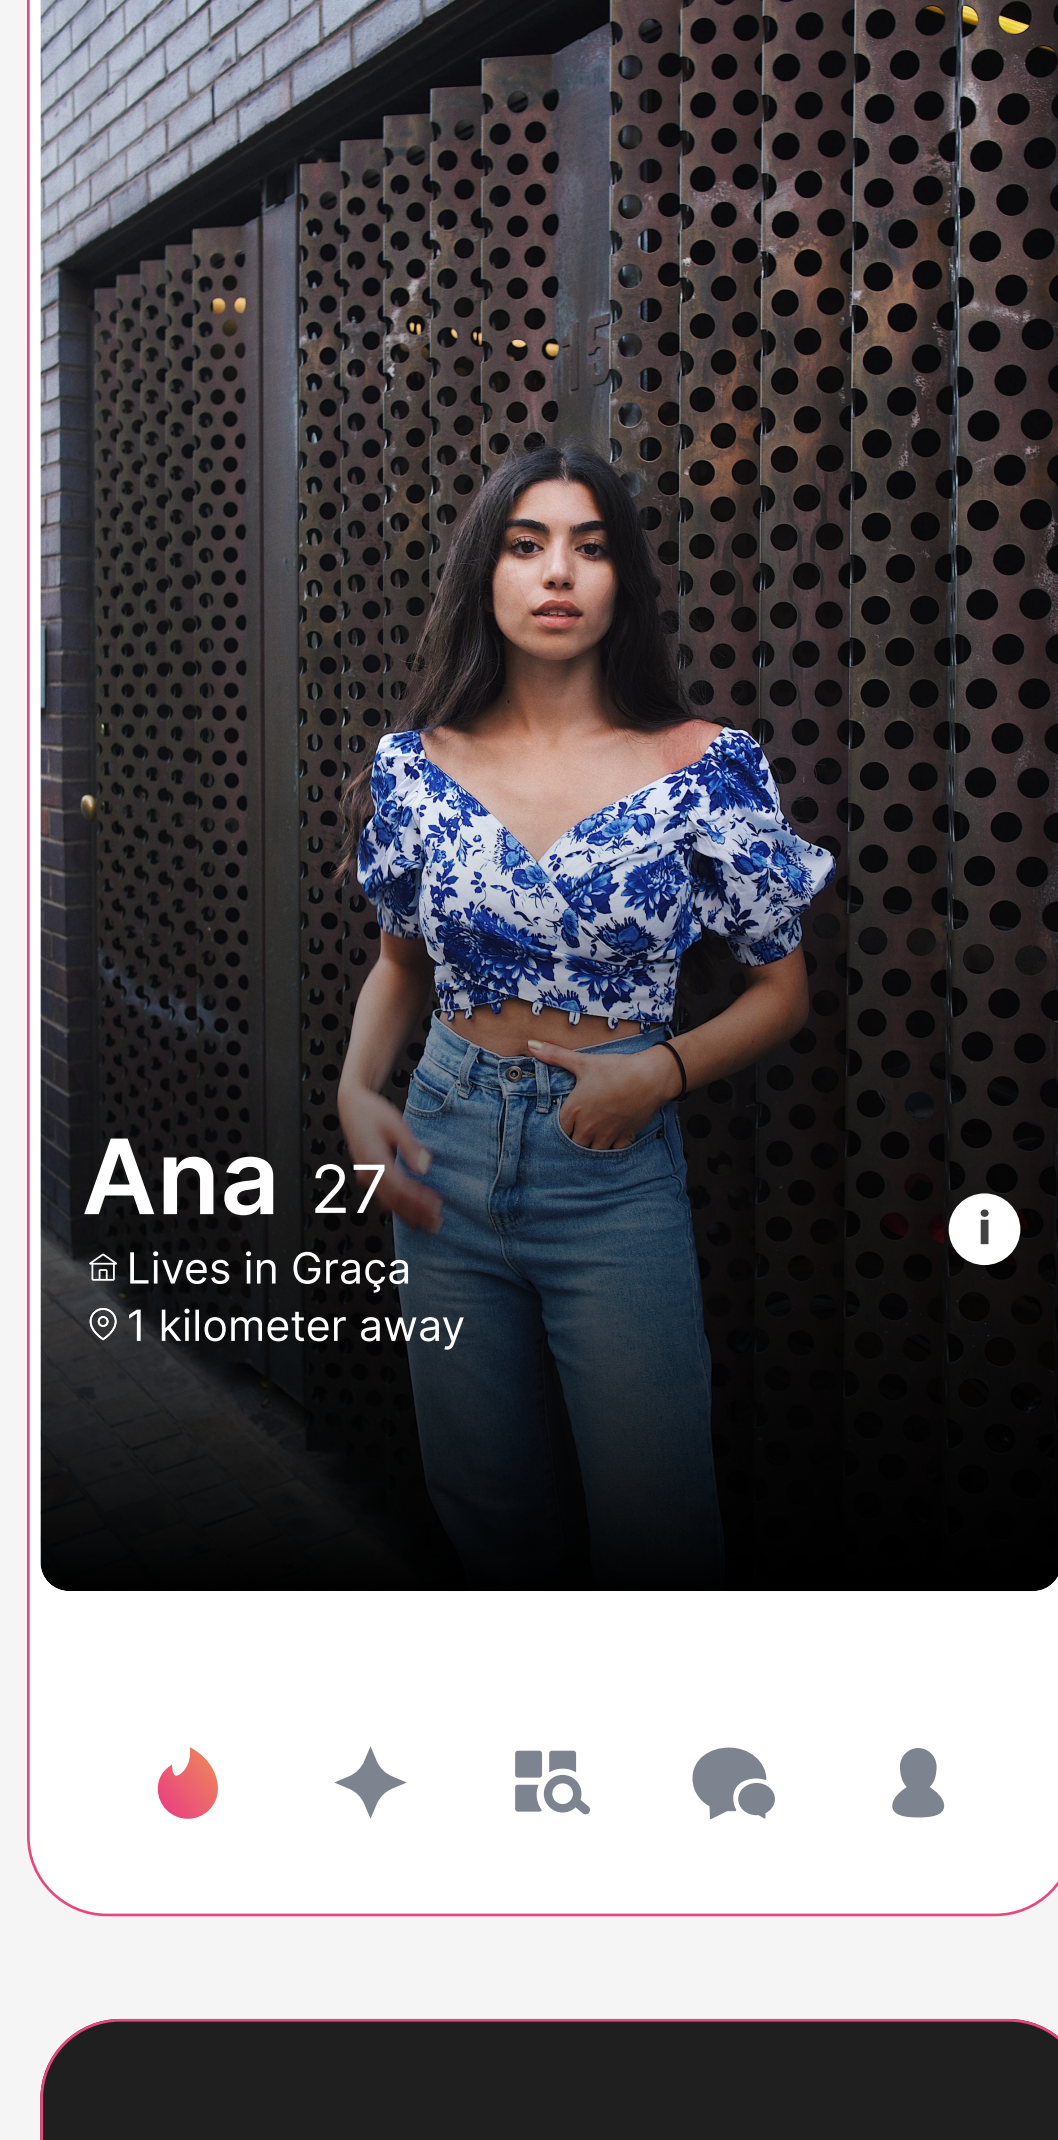

The users can check their answers of the questionnaire from this page.

MATCH RESULTS:

Once match successfully , the users know which ones are exactly the same, and which ones are similar and which ones are different.

MATCH PROCESS:

After matched, the users could send messages to each other and talk about sexual consent based on their answers to the questionnaire.
